Docket No. 54821.P1/ 3536.1

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: Kosaraju Krishna MOHAN, et al.
Serial No.: 09/770,340
Filed: January 26, 2001
For: LOW DENSITY PAPER AND PAPERBOARD ARTICLES
Examiner: Jose A. Fortuna
Group Art Unit: 3727
Patent No.: 6,802,938
Issue Date: October 12, 2004

PETITION TO CORRECT INVENTORSHIP UNDER RULE 1.324

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Please correct the inventorship of the above-referenced patent as follows:

On the face of the patent under "Inventors", please add the following inventors:

-- PETER MATTHEW FROASS, Chester, NY (US); and DAVID VERD REED, Blanchester, OH (US) --.

REMARKS

It has come to the Applicants' and Assignee's attention that the inventive entity was misidentified in the above-referenced application and in the '938 patent issued therefrom. The application as originally filed named Kosaraju Krishna Mohan and Alexander A. Koukoulas as co-inventors of the claimed subject matter. While the aforementioned are co-inventors, the original application papers and declaration erroneously omitted two additional co-inventors, Peter Matthew Froass of Chester, New York and David Verd Reed of Blanchester, Ohio. This error occurred without deceptive intent.

Upon realizing the error in the naming of the inventive entity, the Applicants filed a Request to Correct the Inventorship, pursuant to Rule 1.48 (a) on August 24, 2001. A copy of the 2001 Request, and the supporting papers, is enclosed herewith.

It was the Applicants' understanding that the Patent Office had granted this Request and corrected the inventive entity. However, when the '938 patent issued, only Messrs. Mohan and Koukoulas were named as inventors on the patent. In view of this circumstance, the Applicants and the Assignee are again petitioning the Patent Office to correct the named inventorship, this time under Rule 1.324.

Once again, the Applicants and Assignee respectfully request that the application be amended to add Peter Froass and David Reed as additional co-inventors. Thus the new, corrected inventive entity should be Kosaraju Krishna Mohan, Alexander A. Koukoulas, Peter Matthew Froass, and David Verd Reed.

In accordance with Rule 1.324, submitted herewith are statements from each added co-inventor Peter Froass and David Reed confirming that the error in naming the inventors in this case occurred without deceptive intent. Statements from the originally-named inventors, Kosaraju Krishna Mohan and Alexander A. Koukoulas, are also enclosed indicating their agreement with and consent to the correction of inventorship. Additionally, a statement from Richard C. Stewart II, on behalf of International Paper Company, the assignee of the entire interests of Mohan, Koukoulas, Froass, and Reed, consenting to the correction of inventorship is enclosed along with copies of the recorded assignments of the inventors.

Finally, a petition fee of \$130.00 under Rule 1.20(b) and a proposed Certificate of Correction are enclosed.

In light of the foregoing, it is request that the patent be corrected to add Peter Froass and David Reed as co-inventors and that a Certificate identifying the corrected inventive entity be issued.

Respectfully submitted,

LUEDEKA, NEELY & GRAHAM, P.C.

Sir:

1. My name is Kosaraju Krishna Mohan, and I am currently employed as a researcher for International Paper Company of Purchase, New York.

2. As a part of my employment with International Paper, I worked to develop improved low density papers and paperboards and articles which may be formed from such papers and paperboards. In my work in this area, I collaborated with other employees of International Paper. In particular, I collaborated with Alexander A. Koukoulas, Peter M. Froass, and David V. Reed.

3. It is my understanding that on or about January 26, 2001 a patent application was filed, Application Serial No. 09/770,340, entitled "Low Density Paper and Paperboard Articles". I further understand that the application names as inventors Alexander A. Koukoulas and myself. This application issued as U.S. Patent No. 6,802,938 on October 12, 2004.

4. I have reviewed the '340 application and the issued '938 patent, and I believe that both Peter M. Froass and David V. Reed should have been named as co-inventors on the

'340 application and the '938 patent in addition to Koukoulas and myself due to their inventive contributions to aspects of the invention claimed in the '340 application and the '938 patent. Their omission was an oversight which occurred without deceptive intent.

5. I further understand that a Petition is being filed to correct the inventorship of the '938 patent and add Peter M. Froass and David V. Reed to the named inventors. I agree and consent to this change in the named inventorship of the '938 patent.

REQUEST TO CORRECT INVENTORSHIP

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

Please amend the specification as follows:

On the cover page, after the first-named inventor KOSARAJU KRISHNA MOHAN delete "AND," and after the second-named inventor ALEXANDER A. KOUKOULAS, insert -- PETER MATTHEW FROASS and DAVID VERD REED --.

REMARKS

It has come to Applicants' attention that the inventive entity has been misidentified in the above-referenced application. The application as originally filed named Kosaraju Krishna Mohan and Alexander A. Koukoulas as co-inventors of the subject matter disclosed in the application. While the aforementioned are co-inventors, the original application papers erroneously omitted two additional co-inventors, Peter Matthew Froass of Chester, New York and David Verd Reed of Blanchester, Ohio. This error occurred without deceptive intent.

Hence, Applicants respectfully request that the application be amended to add Peter Froass and David Reed as additional co-inventors. Thus the new, corrected inventive entity should be Kosaraju Krishna Mohan, Alexander A. Koukoulas, Peter Matthew Froass, and David Verd Reed.

In accordance with Rule 1.48 (a), Applicants submit herewith statements from each added co-inventor Peter Froass and David Reed confirming that the error in naming the inventors in this case occurred without deceptive intent. A statement from Jeanne McCabe on behalf of International Paper Company, the assignee of the entire interests of Kosaraju Krishna Mohan and Alexander A. Koukoulas, consenting to the correction of inventorship is also enclosed.

Also enclosed are copies of newly executed declarations by the inventors.

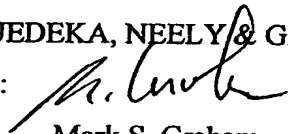

Applicants are also submitting under separate cover for recordation in the Patent Office assignments of all rights by the added inventors in favor of the same assignee International Paper Company.

In light of the foregoing, Applicants request the present application be amended to add Peter Froass and David Reed as co-inventors.

Respectfully submitted,

LUEDEKA, NEELY & GRAHAM, P.C.

STATEMENT OF PETER MATTHEW FROASS

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

1. My name is Peter Matthew Froass, and I am currently employed as a researcher for International Paper Company of Purchase, New York.
2. As a part of my employment with International Paper, I have worked to develop improved low density papers and paperboards and articles which may be formed from such papers and paperboards. In my work in this area, I have collaborated with other employees of International Paper. In particular, I have collaborated with Kosaraju Krishna Mohan, Alexander A. Koukoulas, and David Verd Reed.
3. It is my understanding that on or about January 26, 2001 a patent application was filed, Application Serial No. 09/770,340, entitled "Low Density Paper and Paperboard Articles". I further understand that the application names as inventors Kosaraju Krishna Mohan and Alexander A. Koukoulas.
4. I have reviewed the '340 application, and I believe that both David Verd Reed and myself should have been named as co-inventors on the '340 application in addition to Mohan and Koukoulas due to our inventive contributions to aspects of the invention claimed in the '340 application. This omission was an oversight which occurred without deceptive intent.
